

# TISAX®-Assessment

The main objective of BURG DESIGN GmbH in the area of information security, is to maintain the confidentiality, integrity and availability of information through the operation of an information security management system (ISMS) using a risk management process and to provide interested parties, especially customers, with confidence that risks are being managed appropriately.

The security level of BURG DESIGN GmbH is according to VDA/ISA TISAX® (Trusted Information Security Assessment Exchange) 'Info very high', 'Proto parts' and 'Avail very high' (Assessment Level 3).

TISAX® serves as a cross-company recognition of information security assessment results in the automotive industry. The regular assessment is carried out according to internationally recognized industry-wide standards based on ISO/IEC 27001 and industry-specific requirements of the automotive industry.

The results of the assessment of BURG DESIGN GmbH, which was conducted by an independent audit provider, can be viewed using the following link:
